

TRIBUTE TO GARY CRAIG

After doing a three and a half year diploma in Gestalt experiential therapy I felt raw. I was introduced to EFT by a friend during the course and went to see a hypnotherapist who had brief training in EFT. I felt so much better after the session, I wanted to share this fabulous tool with whoever would listen to me!

I studied the videos and trained as an EFT practitioner until being rigorously trained personally by Gary both in the UK and in the USA to become an EFT Master. I felt inspired to become an ambassador for EFT, to search for excellence in my practice, to "get EFT out there" and to transform my life completely!

Gary has given the world a great gift. He has given hope to thousands of people who felt hopeless and out of control. He has showed us the possibility for miracles and always being "open to new possibilities". Beyond that he has a vision for humanity that transcends time and space. He has been an outstanding Leader and loving, and compassionate mentor. Everything Gary stood for is in alignment with my own values and belief system. My love and best wishes go out to him for peace and many blessings in his retirement.

Ann Ross, EFT Master (EFT Hons.Cert)
