

TRIBUTE TO GARY CRAIG

I first met Gary in Dallas in 2005, at his Serious Disease workshop. However, by then I felt I knew him intimately, having watched him for many hours on his videos. I still remember the moment he stepped out of my computer screen and into my tangible reality on that stage! Yet he was exactly the same as the Gary I already knew!

Since then our paths have crossed on a number of occasions, culminating in a return to Dallas to present alongside him at the first Masters Showcase. I remember being on stage being put through my paces by him as the interviewer and wondering how it was I had found myself there! Yet again, I found myself grateful for the tapping!

My journey with Gary and EFT has taken me to rooms of my Palace of Possibilities that I never even knew existed. It has challenged me, pressed my buttons, flagged up unresolved issues for healing and had me stepping up to plates that, without the tapping, I would never have dreamed of, let alone found the courage to face – in particular being flung onto the public stage, almost literally! But I thank you Gary and Ann, I would never have done that without your determination and encouragement!

The EFT Masters programme was undoubtedly the most challenging thing I have ever embarked on. I remember Gary and Ann Adams announcing it for the first time at that Dallas workshop, and Sue leaping to sign up, with me a somewhat reluctant follower! It turned out to be one of the best things I have ever done. I acquired my EFT parents in Gary and Ann, and a wealth of wonderful like minded siblings in my fellow Masters.

The spirit of support, encouragement and love within that community continues to this day and I feel truly blessed to be part of this wonderful family. There have been ups and downs, as is inevitable in any family with strong dynamic members, but I would not have missed it for the world. I have learnt so much, and we have grown stronger together. Those bonds are there for life.

Gary has contributed, and I am sure will continue to contribute, so much to world healing – the time is right for him to reap the benefits by regaining his personal health and wellbeing.

Thank you Gary for your vision with EFT. You once said that you hoped EFT would become a household name, with a tapper in every home. I think you are well on the way to that phenomenal achievement. May you enjoy a long, peaceful and deserved retirement. I know our paths will cross again and I look forward to the next installment of your healing journey.
