

TRIBUTE TO GARY CRAIG

The thing I think of most when I think of thanking Gary Craig is this:

In 1999 while attending the first international Energy Psychology Conference in Las Vegas, Nevada, I attended my first Gary Craig EFT workshop. Afterwards, walking down a corridor with him, I said something like, "I love this work. I just wish I could teach it to others. I'm sure you don't allow people to attend a class and then just teach it."

I will never forget Gary's response because it allowed me to live my passion in a way I had never imagined. He said something like, "You can teach it. Teach it to everybody." These are not his exact words, but it is the meaning of what he said. I remember just reeling – being shocked – everybody else was protecting "their" work and Gary was telling me to teach EFT – get it out there – let as many know about this wonderful healing tool as possible.

It took six months of practicing EFT on anyone who would let me before I felt I knew enough to teach that first course in Malvern, Victoria. My friends gathered about twenty people together and with my heart in my hand, I taught my first course. Thousands of students later, I have not looked back.

I thank Gary from the depths of my heart for making EFT so very available to us. It allowed me to embrace my passion, work in such a powerful and gentle way with others and it certainly changed my life.

I will be forever grateful to him for that.

Maggie Adkins, EFT Master
