

TRIBUTE TO GARY CRAIG

Gary Craig will go down in history for the invention of EFT and even more for the way he managed to deliver it to the world. It is amazing that in a short period of 10 years or so Gary has managed to get EFT so widely known and used across the globe. It was Gary's vision and genius that put this simple but powerful technique into the hands of the deserving masses to help fix their emotional problems.

My life's direction certainly changed when I was introduced to EFT and when I attended some of the workshops with Gary and finally attained the EFT Masters level. I was completely focused on using this technique and daily amazed by the results it got. Thank you Gary for your great contribution to the field of energy healing. You have given us a wonderful gift in EFT.

Rehana Webster

EFT Master
